

Financing Aspects on the BRI of China

ZHOU Qiangwu

International Economics and Finance Institute(IEFI), MOF, China

Colombo · 20 September 2017

Some Observations

1

Infrastructure connection is a priority in the "Belt and Road" initiative(BRI).

Some Observations

2

There is a huge deficit on infrastructure construction in countries along the "Belt and Road"

Some Observations

3

Sustainable infrastructure development requires sustainable financing.

Some Observations

4

The financing resources for the "Belt and Road" need to be diversified.

Some Observations

5

First, various types of funds from China have been engaged in BRI.

Some Observations

6

Second, MDBs will be playing a significant role in infrastructure construction.

Some Observations

7

Third, sovereign wealth funds, institutional investors and private investors are also needed.

Some Observations

8

Creating a stable, diversified and sustainable investment and financing system by integrating all the financing resources needs further discussion.

A faint, stylized world map is visible in the background, rendered in a light gray color. The map is composed of horizontal lines, giving it a textured appearance. It is centered horizontally and occupies most of the upper and middle portions of the slide.

Thank you
