

## **SHIJIN LIU**

Vice Minister

Development Research Centre of the State Council, PRC

Dr. Shijin Liu is, on concurrent basis, Executive Director of the China Federation of Industrial Economics and Deputy Director of CFIE's Academic Committee; Member of the National Consultant Committee for Industrial Policies; Member of the Expert Committee of the Commission of Science, Technology and Industry for National Defense; Member of the Academic Committee of China Reform Foundation; and, Director of China Development Research Foundation.

Dr. Liu's research interests are on economic growth, industrial development and business cycles. Over 200 of his papers and articles were published in major domestic and foreign journals. He wrote or edited over 10 academic works and finished a series of internal study reports. His work on "growth deceleration" of catching-up economies like China has been reported at many conferences and published in the book "Middle-Income Trap" vs "High-Income Great Wall: Real Challenges to and Strategies of China's Economy", and other related papers. He has a clear understanding of the fundamental processes of China's economic growth since reform and opening policies were launched. He was awarded Winner of the Prize for Excellent Papers on Economic Science of the Sun Yefang Prize for Economics, CASS Prize for Excellent Papers and the First Prize for China Development Research.

He received his PhD in Economics from the Graduate School of the Chinese Academy of Social Sciences.
